Harvia Luminous

The flexible sauna & spa lighting solution

Harvia Luminous range consists of fiber and LED lighting products. The fiber lighting is a new addition, which is available in different set-ups for sauna and spa uses.

• Heat-resistant glass fibers with heater lens for sauna
• High quality plastic fibers and optional glass crystals for spa
• Plastic fibers are also perfect for decorative lighting in any other rooms

Luminous Crystal 3	ZVK-533	1	Crystal, short diamond	6417659019422
Luminous Crystal 4	ZVK-534	1	Crystal, long diamond	6417659019439

Notes

• The heater lens is for emphasizing the steam rising from the heater
• Luminous Fiber 2 kit is intended as a second unit for large saunas and does not include the heater lens or the thicker fiber that is needed for it
• The heater lens can be bought as a spare part
• Luminous Fiber 9 kit has a total of 110 fibers for creating stunning starry sky lightings
• Crystals are real glass crystals, with chromed fittings
