# SUPER FEATURES & ADVANCED TECHNOLOGY

The **2nd** generation  
Touch Screen

The **3rd** generation  
Touch Sense

Over the years, the subjects of minimalism and simple living have captured a large numbers of health-seekers' attentions for making more deliberate choices about "Less is More" lifestyle. Simplicity corresponds to our most innovative TouchSense design, evolving from TouchScreen control, has revolutionized the rimless design gives dirt and germs no-where to hide. Such streamlined design of 1-piece bathtub offers excellent antibacterial, sanitising and smell-reducing properties, which prevents the formation of mold and accumulation of dirt & germs that makes it far easier to clean.

S. Colour

### S. Colour

Lighting and colour are integral parts of spa experience that our heat & waterproof LED illumination include new Light-Rings on jets. Throughout the pool water correspond to colour therapy is believed to have strong associations with different healing properties of rosy-red, deep-sea blue, meadow-green, serenity of indigo, sunny-yellow, freshy-orange, these emotional colours are preprogrammed on rotating basis.

Hot Spring

### Hot Spring

Our HolmSpa whirlpool system give you a luxurious HotSpring warm massage, it will maintain the temperature of your bath water – keeping it warm for as long as you like. You can choose a nice warm bath to help you prepare for a good night's sleep or an added mineral salt to refresh, invigorate and drainage purpose.

S. Sound

### Audio System

The AM/FM radio and waterproof speaker of another added sensory enjoyment. XP1-Audio is the audio system sends audio waves through the shell of the bathtub, turning it into a single speaker. The water then enhances the sound to create a unique audio experience (subject to availability and different model).

### Silent Power

The enhance anti-vibration pump is now even quieter that designed to combine easy installation, energy efficiency and low-noise operation. Now you can enjoy your new found peace and quiet moment while you are in our HolmSpa bathing tub.

S. Hygienic

### Disinfection by Ozone

We have adopted such automatic system to ensure our S.series-O3 Ozone is a natural and effective water purification system. Ozone is being pumped into the water, with the help of electricity from the oxygen in the air as long as the whirlpool motor is running, subsequently it is released into the air as pure oxygen. The system will operate maintenance free for 9,000 one-hour bathing sessions.

### Self-cleaning Pipeline Drainage

Over time oils from your body or soaps can coat the whirlpool internal plumbing. This coating can lead to bacteria form but can be cleaned with the use of respective cleaning solution. In a more simpler way to keep clean & hygiene bathware especially for those on frequent overseas trips, our arched-pipe construction to ensure no water can sit on a curve of these arches-shape pipe between each jets. Further step is to add in the solar conversion valve and water inlet valve for the fresh water circulate through the internal plumbing system including the water and air lines, massage jets and pump, out the suction and down the drain to flush away any residue from the internal plumbing system.

S. Pulsation

### Hydrotherapy Jets

Innovative hydrotherapy of ergonomically grouped in therapy seats. Pronounced back-and-forth massaging motion moves water in a whole new way. Assertive action or mild massaging as desire.

### Pulsating Booster Jets

Whirlpool styled-jets that deliver a muscle invigorating massage, of gentle, pulsing massage action that targets large muscle groups with direct and powerful hydrotherapy. Lessens tension at critical pressure point throughout the body.

S. Pool

### Overflow Circulation

There is a similar pool overflow to insure that the water inside the tub won't rise to a level where it goes over the top of the tub, in order to keep water from migrating in between the structure of the pool tub and the concrete deck that is poured on top of it. An overflow skims excess water before it tops out of the pool and takes it away from the pool area by way of a drain line.

S. Warm

### Keep Warm Heater

The installed heater pump will maintain the temperature of your bath water – keeping it warm for as long as you like, and not to decrease any power of the pump throughout the water.

 Adjust body from acidic to weak alkaline

## Steam

### Aroma Therapy Oils

It is helpful for mind and body relaxation; not only bring a refreshing breath to your facility but the aroma therapy oils have also health beneficial factors especially a soothing effect for the respiratory system. We now offer different aroma fragrances of Forest Fresh and Eucalyptus scents and are available in 5 litres, 500 ml and 250 ml in sizes.

## Dr. Sauna Haruhiko

### Orange Nano Thermal Powder

This mineral-content thermal storage medium has sterilize and deodorization effects, use for chronic inflammation patients, promoting blood circulation, prevent hardening of the arteries, myocardial, cerebral thrombosis, hinauit disease and stiff neck, nervous paralysis from fatigue, sleeplessness and appetite fall.

## Body

### Sauna Thermal Oil

The best therapeutic oil to go with spa sauna and gently massage. Such Sauna Thermal oil is essential oil that made of pure natural herb extract with sesame oil of chemical free. Under heated condition, it soothes the tension muscles and promotes blood circulation to ease blood clot. Gently massage further enhances penetration for a true body and soul relaxation.

## Body

### Lemon Grass Body Oil

HolmSpa's lemon grass oil is suitable for spa and aromatherapy that gives the freshest scent. Effective to ease joint support, high cholesterol, improve eyesight, water retention, flatulence, clear infections, and insect repellent.

## Drink

### Lemon Grass Herbal Drink

Lemongrass is a herb cherished for its aroma and citrus-cum-ginger taste, which possesses a lot of medical and health benefits. Lemongrass brings you back to normal health based on testimonies of people who suffered from contrary illnesses such as high & low pressure, constipation & diarrhea, incontinence & urinary hesitancy. It has its roots in ancient medicine and is used as a form of preventive medicine to maintain good health.

## Sauna

### Sauna fragrance

is totally soluble in water, and diffuses in generous quantities when the diluted solution is poured onto the hot stones of the stove (10 to 20 ml diluted in a litre of water). Enjoy the fragrances as they spread generously around the room. Never use pure essential oils in a sauna! Essential oils are fatty particles that remain on the surface when they are poured into the water. As a result, most products used in saunas give off scents that are created by the calcinations of the essential oils when they come into contact with the burning hot sauna stones.

## Foot Scrub

### Footy Massage Cream

It is suitable solution for your "hardworking" stinky feet. Gently foot massage and then soak inside a hot foot tub to help circulation of blood to remove bad odor.

## Body Scrub

### Aqua Marine Mineral

have a draining, reducing and detoxicate effect. Favour the elimination of dead cells. Helps contrasting cellulite

Marine Salts, Sweet Almond, Grain Germ Oils, Algae Extracts

## Body Scrub

### Ruby Grapes Mineral

Rich in natural extracts with some truly innovative properties, to favour a deep cleansing and convey a full range of stimulating and purifying substances granting a soft and velvety skin, together with the right balance of vitamins and minerals to keep it well protected and hydrated

Red grapes, Red grape pips, Wine extract  
 Wild rose, Raspberry, Strawberry, Blueberry, Elder extract
